

Dear Sir/Madam

SABMA, a membership organization that seeks to advance African entrepreneurs in the Mining Sector in Southern Africa, supported by various government departments and the private sector will be hosting a premium development and networking golf challenge titled **The 3rd Annual SABMA Mining & Energy Golf Challenge 2026**. This exclusive golf challenge is scheduled to take place on **26th March 2026** at the prestigious Blue Valley Golf Estate in Johannesburg, Gauteng, where government and industry players in the mining and Energy Sectors will challenge each other in a game of golf.

SABMA's main role is to advance the interest of previously disadvantaged entrepreneurs and professionals in the mining industry, from junior and emerging miners, to suppliers in the mining sector. SABMA has a board of diverse by a diverse set of professionals in the mining space who have a combined experience of 50 years. These professionals range from mining, engineering, training to finance, so as to assist struggling African entrepreneurs in the mining sector with capacity, from equipment required, to professionals' skills and finance. SABMA has partnered on a R3 Billion Rand Mineral Fund to assist black miners and operators with resources, permits and equipment to successfully mine. SABMA's big push is also the beneficiation of our mineral resources in Southern Africa.

The SABMA Mining & Energy Golf Challenge 2026, is a golf day designed to encourage stakeholders, civil society, investors and private sector organizations to interact with key stakeholders in the mining and energy sectors in a game of golf. Participating organizations will be required to stick to our format of the game, that encourages networking, where at least a mining, energy, government or investment executive should **be invited to be part of every four ball**.

Your company has been carefully chosen as one of the few companies to participate in this exclusive golf challenge during this exciting time in our South African history where you will gain insight into the future of energy and mining. The global mining industry is shifting towards sustainability and decarbonisation, where hydrogen and fuel cell technologies are playing an increasingly crucial role in shaping the future of energy in mining. South Africa, with its abundant platinum group metals (PGMs) resources, is uniquely positioned to lead the hydrogen economy, unlocking new investment opportunities, job creation, and supplier growth. These opportunities will be unpacked by our keynote speakers at the prize- giving dinner.

A golf day of this nature will promote learning and sharing of ideas as well as experiences on a range of developmental and partnership issues facing both local and global mining players. We are confident that these informal networks will grow your relationship with various stakeholders in the mining and energy sectors, and provide you further opportunities for cooperation and partnerships.

The SABMA Mining and Energy Golf Challenge, themed **"Forging Partnerships for a Stronger Mining Future"**, will be attended by an exclusive field of 100 golfers. This will be a Four-Ball Alliance which will tee off with a Shot Gun at 11am. Guest Registration will kick-off from 9am, a tradition that works well with the spring clear morning skies of Johannesburg, which will be followed by afternoon drinks, which includes a special Taste of Gold session termed the 19th Hole, that will take place in the afternoon. This is the time golfers will be winding down network before heading to the Prize Giving Dinner. There will also be vendor tables where female jewelers will be showcasing their beautiful pieces to guests, golfers and key stakeholders to support them as part of their enterprise development programme, women empowerment and a social cause.

The prize giving dinner will be held in the evening, where golfers will be awarded fabulous prizes. The Premier of Gauteng, The Honorable Panyaza Lesufi has been invited to deliver a keynote address amongst other notable guest speakers during the networking dinner, where he will unpack **"The Future of Energy & Mining in Gauteng"**.

This golf day seeks to benefit the Jewelers Academy for Women, where pledges will be encouraged and an auction will be held during the prize giving dinner, of items from some of our highly celebrated leaders.
